

Building for the Future

This facility participates in the Child Care Food Program (CCFP), a Federal program that provides healthy meals and snacks to children in child care settings. Each day more than 2.6 million children participate in the CCFP at day care homes, child care centers, and afterschool programs across the country. Providers are reimbursed for serving nutritious meals that meet USDA requirements. The program plays a vital role in improving the quality of child care and making it more affordable for low-income families.
